Work experience

Dündar Computer

Summer intern

June 2016 — July 2016

Aydın State Hospital

Summer intern

June 2017 — July 2017

Onr Computer

Junior Technical Consultant

December 2018 — January 2019

Customers own computers of software and hardware hardware. I give gifts to customers and remove them well. I was getting an experience both how to talk and about computer science.

Bilgim.net

Freelance Writer

May 2018 — May 2019

I am one of the first members of the bilgim.net family. I had very good experiences here. I have published articles in the field of technology. You can also find it in my publications. I tried to cover many technologies from the past of the computer to the ssd, which is one of the most used hardware today.

Tavuk Dünyası

Pageboy

August 2020 — Semtember 2020

Bulut Toptan Malzemeleri (BTM)

Salesman

July 2021 — Semtember 2021

Bionluk

Professional Freelancer

February 2020 — October 2021

I prepare company, personal promotion and blog sites professionally and deliver them to the employer. I integrate artificial intelligence algorithms coded with JavaScript into websites. I provide hosting and domain service support for websites. I solve hardware or software problems by connecting to people's computers with Teamviewer. I enter products for e-commerce sites and provide seo support to many websites. I market and develop desktop projects. In addition to AdWors advertising support, I also provide services in the field of digital marketing.

Education

High school, information system 2013 — 2017
Mimar Sinan vocational and Anatolian technical high school

Bachelor's degree, computer Technology 2018 — 2022
and information system
Mehmet Akif Ersoy university

Interests

Software, software testing, data; I work on database, artificial intelligence and cloud computing. At the university, I produced circuits using the Proteus program and worked on Excel and word.

C, C++, C#, Html, Html5, Css, Javascript, Php, Ado. Net, Asp. Net, MatLab, Python and OOP software. I also have a lot of work on Wordpress.
Database; I have knowledge of Sql, SqlServer, MySQL, MSAccess management and design.

I work on Big Data, Data Science (DataScience), DataMining and Deep Learning.

I use Selenium and Source Monitor for software testing. I am interested in Cloud Computing; Amazon Web Services (AWS) and Microsoft Azure.

I love learning, math, literature and software. "En Zor Rakip 'Sensin'" and "Bütün Eskileri Eskici Alır mı?" I am the author of his books. Mathematics is a part of life, I believe Literature is a culture. I am also a blogger, magazine and newspaper writer.
